REASONS FOR ALLOWANCE

1. Claim 1-34 will be allowed.
2. The following is an examiner's statement of reasons for allowance:

The closest prior art of record (Doyle Patent 6,009,455 or Kampe et al. 2002/0042693) does not provide for nor suggests providing for as follows:

a node, wherein when the node is not configured with the current executable software to perform one or more compute jobs to participate in the grid as a compute node, the node is configured to discover the master node in accordance with one or more peer-to-peer platform protocols and in response to said discovering the master node, send information about the node to the discovered master node in accordance with the one or more peer-to-peer platform protocols, wherein the master node is further configured to, in response to said information about the node, send grid configuration information to the node in accordance with the one or more peer-to-peer platform protocols (see, e.g., Specification Page 14-16 and Figure 5).

For these reasons, in conjunction with the other limitations of the independent claim, puts this case in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
